Hastings**

PAYMENT

If an individual, we request cheque with order. While we would like to offer credit card facilities, we are sure you will understand that in order to keep prices to a minimum, this has not been possible. We do not charge cheque fees or GST.

If you are ordering on behalf of a ***SeniorNet or similar organisation, a cheque with order is appreciated, but we are also happy to supply with an invoice.

QUANTITY

If you are a SeniorNet or similar organisation member, we would suggest that rather than ordering individually (and incurring a freight charge) it would be more economical for an organisation to order a total of 10 CDs **freight free**, and then distribute to members. The reason for the jump in freight charges for 2 – 9 copies is that, beyond a single copy, we are generally paying parcel rate instead of letter rate.

LIMITATION OF LIABILITY

While we have done our best to ensure that we have selected only quality software and offered the best advice, of necessity it must be said that the CD-ROMs, and the programs written by many different authors, can only be offered on an “all care, no responsibility” basis. Compensation for any damage alleged to have been caused by the use of these CDs, or the information contained on them, is limited to a refund of the purchase price.

Thank you for ordering, and may your computing enjoyment be enriched by **Senior Years Basics Tutorials** and **The Best of Senior Years Freeware**.
